

WAYS YOU CAN FIND WHERE THE RIGHT OF WAY IS:

Many of our newly widened or improved roadways will actually have a concrete monument labeled as "r/o/w". They actually look like little Washington Monuments.

In the absence of monuments, good indicators are telephone poles, power poles and in the absence of those, speed limit or other roadway signs erected by the county or state.

REMEMBER TO PLACE YOUR DIRECTIONAL SIGNS BEHIND WHERE THE ABOVE MENTIONED OBJECTS ARE LOCATED!
